Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decaye teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burr again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incenuity that detection is impossible.

The Plate we use for the atmospheric pressure is the Wholebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,100 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

LANMAN & KEMP'S MEDICINAL PURE COD-LIVER OIL.—The affections culminating in consumption admit of no delay in useless experiments. Their development is generally very rapid, and end fatal. The cough which is neglected to-day, as insignificant, may become in the course of one week pneumonia, bronchitis or incipient consumption. There is but one remedy available in cases of acute or chronic lung disease, whether incipient or chronic, so proclaimed by the authority of the most eminent members of the medical profession, and it consists in the oil extracted from the livers of Codfish. But it behooves the patient to convince him or herself of having obtained the true remedy. This is oil bearing the brand of Messrs. Lanman & Kemp, the most medicinal and purest ever introduced to the public. This firm keep in their employ special agents, who are competent persons, residing at the fisheries, who select and superintend the operation of extracting the oil under the most auspicious circumstances, and by the most approved process, to preserve the Iodine in it. It has no rival in cases of colds, coughs, asthma sore throat, bronchitis, and all other affections which degenerate into liver or lung disease. Two spoonsful of the Pectoral of Anacahuita mixed with one of the Oil will greatly facilitate the cure. cj—2 j16

DEPARTMENT OF INTERIOR.

MINISTER'S REPORT TO CONGRESS.

The report of Minister Frias with appendices amounts to 1250 pages, the purport of which may be summed up thus:—

Situation. The Republic enjoys profound peace, the revolutions of Entre Rios and Mendoza having been promptly suppressed. The Presidential elections passed over without trouble in 12 provinces, but in Rioja and Buenos Ayres the rival bands armed their followers and serious consequences must have ensued but for the energetic action of the National Government in calling out the Federal troops to keep order.

Interventions. National intervention was solicited in San Juan and Jujuy, but was refused in both cases. The Government of San Juan expelled the Chief Judge, and the Legislature of Jujuy arrested and expelled Governor Bustamante. The circumstances in neither case allowed of intervention.

Railways. We require a further sum of $28,000 to expropriate some of the lands that we have to give the Central Argentine Co. The Province of Cordoba has ceded us 133 sq. leagues of land at 800 to $1,000 per league, the titles for which are being made out. Mr. Simpson's survey shews that the Co., has expended £152,887 over the guaranteed capital, and must spend yet £182,802 to put the line in proper order. We have punctually paid the guarantee, without even waiting for the accounts to be approved. The traffic during 7 years shews a steady increase; this year we shall have to pay £30,000 on account of guarantee, and less next year. The London shareholders seem disposed to sell the line for Argentine stock, and in such case the transaction will be submitted to Congress. Dr. Sarsfield opened the Rio Cuarto line last November, the construction of which cost us 2,147,416, $fts.; this line barely pays working-expenses; the Cordobese Government has ceded us a league of land on each side along the line for grants to immigrants. The Gualeguay and Port Ruiz line, stopped during the Entre Rios war, will be ready for working next month. The East Argentine was opened by the President last March.

The Cordoba and Tucuman line goes ahead so fast that it will be completed by the stipulated term of Sept. 1876. Up to the end of March we had paid on account 1,880,714$fts, half cash half Bonds, including the materials in London for the last three sections, since shipped. Mr. Telfener is now sole contractor, with D. Vicente Ocampo as guarantee. The Rio Quinto line is being made by Rogers and Thomas, to whom we have paid up to March 8th the sum of 86,656$fts.; the contract is for £5,160 per mile (or £80 per mile less than the Rio Cuarto line) the whole line of 76 miles to be completed by 8th August 1875. The Campana line with a National guarantee on £400,000 has been transferred by Mr. Matti to a London Company, the concession fixing its completion by Oct. 1874. Of the November 1872 projects we have signed 3 concessions, one to I. Furness and Co, at £8,000 per mile from Corrientes to Mercedes, another to John Clark at £4,750 per mile from Buenos Ayres to San Juan, and a third also to Clark at £9,500 per mile across the Andes. The Jujuy and Catamarca lines are put up for bids to be opened on Aug. 3rd and Oct. 14th of the present year. The San Roman project over the Andes has fallen through, as he did not present himself in 6 months to fulfil preliminaries. The national guarantee of 7 per cent has been given the Billinghurst Rosario line, but not to the Concordia and Gualeguaychu project. The proposed line from Rosario to Santiago, across the Chaco, seems abandoned.

Telegraphs. The National Government wires run 2,618 miles, connecting Buenos Ayres with 58 offices through the Provinces; we have expended £245,000 on these lines, and including private companies the Republic now counts 4,146 miles open to traffic. The messages on our lines fell off during the Entre Rios war, the returns for the the last two years being:—

	Messages.
1872	181,773
1873	170,823

Nevertheless the receipts (81,823$fts) were $3,300 over 1872. The first quarter of 1874 is nearly double the returns of that of 1873. More wires are sadly needed. Messrs. Giraud and Livingstone have contracted for extra wires to Cordoba and Santa Fe at 75,000$fts., to be concluded by end of 1874. The Transandine Co., has reduced its tariff, but a further reduction is much called for.

Post Office. This department works admirably and is almost self-supporting: the returns were—

	1872	1873
Letters and papers	5,769,966	6,787,430
Receipts	$ 150,380	$ 173,108
Expenses	189,492	211,459

Besides mail-coach contracts the following steamboats have been subsidized for carrying mails:—

To Bahia Blanca and Patagones monthly; subsidy £3,120 per an.

From Santa Fe to Parana daily; subsidy £240 per an.

From Corrientes to Misiones; subsidy £500 per an.

Another line will be subsidized from Buenos Ayres to Corrientes and Villa Occidental.

The new General Post-Office in Plaza Mayo, costing £18,000, will be finished by March 1875. The new Capitania and Telegraph Department is also far advanced, in Calle 25 de Mayo, and will cost £13,000 sterling. We have paid £5,000 for the house where Independence was signed at Tucuman, to make it a Post and Telegraph office; besides £3,200 paid for Funes's house at Cordoba for a similar purpose.

Roads and Bridges. We are constructing bridges at Arias in Salta, Sali in Tucuman, Rio Tercero in Cordoba, Saladillo in Santiago, Desaguadero in Mendoza, and Riachuelo in Corrientes. The Entre Rios rebels killed the engineer who was putting up the Nogoya and Ramblon bridges.

The roads made by Carranza and Rojo in Catamarca and Papagayos are completed. That of Wahlberg to Guacra (Tucuman) is nearly finished. The Cobos and Salta road is badly made according to the engineer's report. The repairs of the Uspallata pass, costing $f. 40,000, have been so well made by Mr. Mallmon that the traffic to Chile is much easier. The houses of refuge on the Copiapo route have been made by Carranza. A mule road is to be made from Tucuman to Catamarca, and a waggon road from San Luis traversing Rioja to Cordoba. The Rio Bermejo being now navigated Mr. Christiersen's projected road connecting it with Salta will be put up for tender. The total amount of Roads and Bridges stock expended to date is $f. 1,368,265 (since 1863) including $f. 257,912 last year, of which $f. 30,000 subsidy to the Transandine telegraph.

Immigration.—This powerful element of progress continues increasing, having given us in four years since the census of 1869 no fewer than 183,530 new inhabitants, viz.:

1870	41,053
1871	21,758
1872	41,002
1873	79,712
	183,530

The returns for 1874 will probably reach 100,000, having already given 24,928 in 4 months. The department is ably managed by Mr. Wilcken, and Congress will be required to vote the sums for the new Asylum, steam-launches, landing piers &c., so urgently needed. A law of Homestead grants to settlers is much wanted, disposing of public lands in the most suitable places for agriculture. The Burckhardt colony in the Chaco seems unlikely to prove a reality.

Statistics.—Statistical offices are now established in all the Provinces and we have at press an appendix for 1871 to the census of 69.

Patent Office.—This office issued 40 patents in 1873, and refused 15 applications. The office is self-supporting, the receipts being 5,740$fts., an increase of 25 per cent on the previous year. A law for the protection of Trade-marks is loudly called for, as Mr. Lacroze observes.

Agriculture.—Mr. Oldendorff continues to direct this department with great skill. The Acclimatization garden is progressing. The premiums for silk-growing have been awarded; and a sum of 3,000$fts., given to Mr. Adolph Fauzon towards his new machine for cutting and threshing wheat.

Gran Chaco.—The town of Villa Occidental, seat of the Governor, has 583 inhabitants. The village of San Geronimo, below the Bermejo, and nearly abreast of Corrientes, has 800 inhabitants. The adjudication of chacra lots at Villa Occidental is being proceeded with, and Mr. and Mrs. Camaño receive $140 monthly subsidy for their school.

Bermejo.—This river is now open to regular steam navigation, and the Leguizamon has just left on another trip.

Lazzaretto.—Congress voted 200,000 liuertes for one at Martin Garcia, but the engineers say it cannot be done under $t.581,227; a portion, therefore, will be made for the present. Also a small one near Corrientes, to cost $t.13,038. Another is needed at Rosario. The conduct of the Provincial Governments during the recent cholera, in cutting off communication with the neighboring provinces, was a breach of the Constitution, which leaves this to the National Government.

Exhibitions.—We have received invitations to international Exhibitions in the United States, England and Chile, and have appointed a committee under Mr. Oldendorff to remit articles for such purposes.

Iron.—Notwithstanding the assistance of the French Government, we are unable to get a competent surveyor to look for mineral deposits, the sum voted by Congress being too small. The discoveries of iron in Catamarca and Salta by Romay and Arias shew good ore; but, as Dr. Doring remarks, the difficulties of freight and wages would make it twice as dear as iron imported from Europe.

Public Works.—We are spending $40,000 for city improvements at Corrientes. Also $140,000 at Santiago, under the engineer Montenach.

San Fernando wharf. We have taken shares to $f. 25,000 in this Co., but its prospects are not satisfactory.

Mendoza Glass Co. We have $10,000 in this business, which burst up. The shareholders offered to cede their interests if we would carry it on, but we declined. Auction ordered.

Cloth Factory. We have $f. 10,000 in shares. The first difficulties are overcome, and the business promises well.

Budget. The Department of Interior will require this year $3,112,453 being an increase of $628,027 over last year. The chief items are—

Congress	493,400
Post-office	610,777
Telegraphs	260,896
Immigration	399,024
Roads, bridges &c.	604,000
Provincial subsidies	225,000
Railways	305.428
Public officials &c.	323,928
	$3,112,453

The new Post-office, Lazzaretto, Immigrant Asylum and other buildings account for the increase in such items.

MONTEVIDEO.

June 12th.

Those in favor of the loan are again holding up their heads, as it is now thought probable that the Chambers will sanction the proposed terms; consequent on this, business on the Bolsa looked brighter, and the following sales show an improvement on yesterday's transactions—

A cargo of white pine and spruce that arrived here a few days ago by the British brig Annie W. Goddard from St. Johns was sold to-day at $1.40 on board.

A young man named Venancio Ruiz proved himself to be an honest one yesterday by picking up a pocket-book belonging to a Mr Hacart, which had fallen accidentally from his coat pocket whilst he was running to catch the tram car; this contained a sum of $54.20, and the finder ran after the tram car, and delivered it over to its owner.

The discussion on the Tuson project was continued last night at the 'Camara de Representantes.' The article in regard to depositing the £10,000 after twelve months was brought on again, and Deputy A Lerena, the proposer of the amendment "that said sum be deposited on the concession being signed," asked to be heard, and went in at a furious rate, when the deep voice of his brother Deputy Bustamante startled his weak nerves by asking him what he was driving at, for all he said up to the time had nothing to do with the subject, in consequence of which was loud applause in the gallery. Deputy Lerena, who is not so green as he looks, and only requires a better voice to be a good speaker, quietly took friend Bustamante up by telling him that some people were dull and required long explanations (chuckling in the It was then put to the vote if rena was to continue or not, was allowed to do so, and fin in the twinkling of an eye (he thought it prudent to do s tamante then gave vent to his hot and strong in favor of th months' credit, and before where he was, Mr Lerena, friend in front, in a soft, gentl asked what Mr B. was driving what he was then saying had to do with the question. Mr then obliged to acknowledge puty Lerena "le habia pagad misma moneda," and finally discussion to others. Deputy car, who I believe to be the so Irishman and representati department of Colonia, made a marks, and proposed that they split the difference and lose n time about cash or credit of a ten thousand, which propositi received with great applause. course our countryman carried day by a large majority, and Mr Tuson established a credit of £10,000 for six months. The members then adjourn and your correspondent went home get tea and shrimps.

June 13th.

Bad weather continues, and we have had a drizzly day, which appears to have damped the spirits of every one. The Bolsa was dull, and the sales made did not amount to much. The steamer Saturno was anxiously looked for, as it was known that she had left your port last night, and at the hour I write (4 p.m) she has not yet anchored. She hove in sight, however, about an hour ago, and consequently relieved the anxiety of all those who are interested.

The sales on 'Change to-day amounted to the following, which show a fall compared with yesterday's transactions:

Deuda Interna, 2nd Series.
10,000 at 61 for end month
60,000 at 60½ do
10,000 at 60½ do
80,000 at 61½ do with option of 30,000 more
10,000 at 61½ do with option of 10,000 more
30,000 at 60 for end July
10,000 at 60 do with option of 10,000 more

In exchange a little has been done at 51 and 51⅛, but there was a good deal of talk of the amount of gold that the Neva will probably take from here.

Produce took a turn, and I hear of 6000 hides being sold at 82 rials duty paid, and 50 bales sheepskins a 12 c. per lb.

Discounts remain the same as yesterday.

The Criminal Court has condemned to death five of those who were implicated in the death of Don Federico Rucker, and two others to six years in jail. Those, together with the one I reported a few days ago, will make six that I should be glad to hear had received their deserts.

The steamer Ariadne, of Messrs. Woodgate Brothers' line, and the Valparaiso, of Mr J R Schwartz' line, are both detained from proceeding to yours on account of the windy and rainy weather that we have experienced during the last few days, which has prevented them from discharging the cargo they have on board for this port They will probably leave here on Monday.

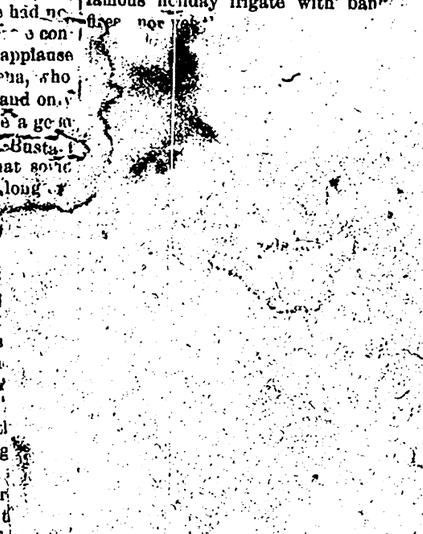
PARIS LETTER.

(*From Our Own Correspondent.*)

April 28th

Since Ministers have repudiated all back-stairs connection with even the agreeable journals, the latter appear to be more inspired than ever. It is impossible for Ministers to be off with the old love. Still less not to attempt taking on with the new. All this does not prevent public opinion from fixing the issues to be decided next month, and to concentrate its quiet influence to establish the Septennial Republic. The President is invited to aid this evolution, by stimulating the measures to be taken; namely, appealing for support to the moderate men in the assembly, who are in no way compromised with extreme views and unpalatable, as well as, impossible restorations. The assembly locks the necessary courage to manfully bow to the wishes of the nation, and to adopt that virile and inevitable resolution—the voting of the Septennate with republican safe—guards and the Marshal for its Protector. To effect this end it is evident that new men must assume the direction of affairs, the present Ministers, were they even heaven born like Pitt, are impossible to execute the programme of Thiers—to which as was foreseen France must return—as they want conviction and authority. They are not believers in the Republic in any form, and their influence has been destroyed by the tortuous necessities of the coalition which carried them to power, maintained them there, but that has now apparently deserted them. The cabinet was the prisoner of that coalition, its henchmen in carrying out that unhappy and unsuccesful policy of exclusiveness and aggression. A once considered ministerial journal chops round to concede, that in the Government of the future not only moderate men must be included, but 'even republicans.' Voltaire observed of the French Academy and its forty immortals; princes, prelates, geometricians, and soldiers are elected thereto—and even literary men.

France is destined to have ever an Italian question on her hands. This time the subject does not relate to the famous holiday frigate with ban[illegible]



[illegible] annexation as a mere business transaction, the French make it a political matter; set the plébiscite to music. Certainly they have done everything to make their Italian heroes and 'amis' as happy as any 'mariage de raison' can effect. It is not certain that had the plèbiscite been against annexation Napoleon III. would have relinquished his indemnity Indeed it was to make Rhenish-Prussians French against their will that the ex-Emperor dreamed of the natural frontiers of France; and it is permitted to doubt, that had he acquired Belgium, after a war with his ally, England, in the scheme projected by Prince Bismarck, he would have abided by the result of an adverse plèbiscite. Much allowance must be made for men, who in a moment of enthusiasm, or of interest, change their nationality.

"Et l'on revient toujours
A ses premiers amours."

The annual army list for France has appeared; it consists of 1,560 pages, and is full of details upon the military strength of the country. The first thing that strikes the reader is, that the 'cadres' of the French army are 40 per cent. more numerous than those of Germany, and represent a greater total of 40,000 men. In Germany, however, the numbers are a reality; here, alas! they exist but on paper. France has too many officers, and too many non-effectives. Upwards of 12,000 men are allocated to mere 'ordonnance' duties. France has four marshals, the senior being Baraguay d'Hilliers, created in 1854 for his services at Bomarsund. MacMahon, in addition to being a Marshal, acts as 'vedette' for the Republic. There are seventeen generals classed as 'immortels,' who are above the regulation age for active duty. The ordinary staff, however, includes 101 generals of division, and 201 of brigade. The dukes of Nemours and Aumale perform the duties of generalship gratis, which is whimsical under a Republic that classes princes only as citizens. The infantry comprises 144 regiments, in addition to some twenty others of a special character—Zouaves, chasseurs &c. There is also one regiment exclusively composed of strangers. This total force is commanded by 136 Colonels, 156 Lieutenant-Colonels, 722 Chefs de bataillon, 4,082 Captains, 3,327 Lieutenants, and 3,732 Sub-Lieutenants. There are 77 regiments of cavalry, comprising 66 Colonels, 77 Lieutenant-Colonels, 302 Chefs d'Es-

cadrons, 1668 Captains, 759 Lieutenants, and 1,322 Sub-Lieutenants. The artillery comprises 38 regiments, but it is still very incomplete, not more than four out of every 13 batteries per regiment being effective. Some years must elapse before the organisation of this branch, the most important now a days—of the service—can be perfected. The corps of Engineers, Commissariat, Ambulance &c. are ranked only as secondary' and are generally considered as complete; thanks to the necessities of the various governments to keep well with the militaires. The inadequate pay of the officers is an old grievance; Lieutenants and Sub-Lieutenants after a dozen years of service have but 154 to 170 francs per month; while a 'Chef de batallion' has only 350 fr. per month, after 20 years of service, and is bound in addition to provide himself with one horse during peace, and two pending war.

Before Spring had rigidly commenced the temperature of the Dog-days has afflicted us, and strange not a swallow arrived, though the atmosphere be full of flies, as indeed it seems every creeping thing has taken wing. The corpulent May-bugs drop from the trees by scores, and being unable to right themselves, are easily captured by children, who fly them like kites. 'Industriels' sell these living toys at the rate of six for a sous. The squares and promenades are masses of flowers, and the trees seem to have come into leaf 'per saltum.' The floating baths, laid up in ordinary for the winter, have arrived at their summer quarters; the cavalry horses have commenced to take their dips, and the foot soldiers their plunges. Were it not for the almanac, and the assurance that in three week hence the Assembly will re-meet, one might conclude we were broiling under the closing days of July. Then the markets are so attractive. With [illegible] balance at your bankers [illegible] on canvas[illegible]ge in cherries, me[illegible]nd grapes. Tomatoes, potatoes and peas are within the reach of the Upper Ten; asparagus which was fr. 25 per bundle last week, is but three at present. Swallows' nests for soup are still high—fr. 2 per ounce.

EDITOR'S TABLE.

The Bad Sovereign 'lark' on Saturday was, we regret to say, within an ace of ending unpleasantly. Editorial virtue is its own reward; and well it is that such is the case, as our zeal in this Bad Sovereign business has not been appreciated as it should in certain quarters. We have a strong objection to being 'interviewed' by three sallow looking "v[illegible]ntes", as if it were taken for granted that we knew where the famous B. S. that has caused such a row came from. The next time we interfere to prevent the Public, the Police and the P. B. being 'stuck', we know what to expect. Motives of extreme delicacy prevent our saying a word more about this truly wretched business.

There was a very respectable demonstration on the Mole on Sunday on the departure of the R. M. steamer Neva. Either the bitterly cold wind, or the sweet sorrow of parting brought drops to the eyes and noses of most of those present. We think it was the wind, but may be mistaken. Mr. Palemon Huergo went off amid 'vivas' from a host of friends. Father Grennan also had many God-speeds! Mr. Madero and Mr. Runciman changed their minds at the 'ultima hora' and did n't go.

Romeo and Juliet was repeated at the Colon Theatre on Sunday night before a crowded and fashionable audience, all the performers improving the good impression they made in the previous production of the opera. The most densely packed part of the house was the 'cazuela,' where the pretty birds seemed to be very tightly caged.

We call attention to the Letter addressed by the Archbishop to the Very Rev. Canon Dillon, inviting his flock to attend the splendid ceremonies and devotions at the Cathedral on the 21st (Sunday next).

An undertaker in Minnesota, wishing to sell out, presents as an inducement to inquirers, the fact that a young doctor of no experience has just settled in the town.

There is a rise in Postage Stamps. The fact is decidedly unpleasant, but true. Hibbert charged $8 m/c. on Saturday last for shilling Queen's heads, which formerly only cost $7 m/c. There are various causes for this elevation in the market value of the P.S. First, Hibbert is in the States amusing himself, and delicacy forbids our abusing him behind his back; next, the abolition of the Consular Post-offices forces him to import the stamps himself, as the Consulate has retired from this branch of business, and last, not least, the famous Gold Pen over the new Gore in Calle Florida was blown down by the storm the other night; so Pens are down and Postage Stamps are up. We hear it rumoured that the Gold-Pen sign is to be replaced by a huge fac-simile of a shilling stamp, with the inscription, "eight dollars, my pippen!" under it. We hope this is not true, as even our long standing affection for the absent Stampman cannot induce us to suppress an opinion that it would be adding insult to injury.

The 'gent' who ran away about a month ago with 30,000 pats. from the Capitania has been arrested in Montevideo, and will be sent up here immediately.

We hear from Peru that His Excellency the President received in private audience on the 6th ult. H. B. Majesty's Minister in Lima: The Honble. William Stafford Jerningham placed in the hands of the President an autograph letter of Queen Victoria, informing him of the marriage of the Duke of Edinburgh with the Princess Marie Alexandrovna of Russia. This is a custom which we know is in accordance with high official etiquette, though 'no cards' have become an institution, and the fact is publicly announced in the newspapers. Her Majesty's new representative at Lima has a brother, now Minister at Stuttgart, who is remarkable for wit. When the Honble. William was leaving England for Peru, the funny fraternal wrote to him recommending him to put 'Stick no Bills' over the Legation door. In a despatch to Downing Street, after Napoleon the Third's proclamation of the Imperial Constitution, the same humourous diplomatist said' "If the new Constitution is not absolutely perfect, there is no doubt whatever as to its being perfectly absolute."

Mr Variety Show Phillips is preparing a laughable treat for us all on Friday next. Everybody is going, of course; and for the benefit of Mr and Mrs Everybody and all the little bodies we beg to announce that tickets for the performance are on sale at the well and favorably known establishments of dear Daws, in Calle Piedad, and the absent Hibbert, in Calle Florida.

The 'correspondencia' system on the C B A Tramway lines is now at work, but we fear it will require a surgical operation to get the ins and outs of it into the public head. We know of an averagely intelligent subscriber who tried it three times, and on each occasion got his 'correspondencia' ticket handed back to him with a polite 'No sirve, Señor!' from the 'mayoral.' The face of the ticket leads to suppose that the 'correspondencia' only holds good for any of the company's lines to and from Plaza Once, but this is, clearly, not the intention of the 'empresa.' We pause for an explanation.

Pathetic Obituary notice.—The following lines are supposed to have emanated from the obituary genius of the *Philadelphia Ledger*:

The death angel smote Alexander M'Glue,
And gave him protracted repose;
He wore a checked shirt and a number nine shoe,
And h[illegible] had a pink wart on his nose.
No doubt he is happier dwelling in space,
Over there on the evergreen sh[illegible]re.
His friends are informed that his funeral takes place
Precisely at quarter past four!

Mails from Asuncion were received on Sunday. There is not an overplus of [illegible] in fact scarcely any, but things are quiet, which is always better than columns of row and ruction intelligence.

The *Prensa* of Belgrano has a good article on the Chacarita Cemetery, and the impolicy and imprudence of placing a burial ground of 48 square squares at a spot which, allowing for the rate at which the metropolis is stretching out in that direction, will soon be a populous quarter of the city of B. Ayres. Our colleague is right. Instead of bothering about new cemeteries Buenos Ayres ought to be considering, as all the great cities in Europe are, the establishing of incremation and the cheapest and least offensive way of boiling down defunct Humanity.

We perceive with pleasure that the Very Rev. Canon Miller has been named Treasurer of the Cathedral of Parana.

Bids for the construction of the much talked of Arsenal at Zarate have been sent in. They vary from £12,000 to £15,000. A fishy sort of an Arsenal it will be for such an inadequate sum.

The "little bill" for the last scrimmage in Entre Rios is not paid off yet. The Government has called for an extraordinary credit of $100,000 hard, to close the account.

The Agricultural Institute, on the well known demesne Santa Catalina, will be inaugurated on the 1st prox.

We understand that the Pigeon-shooting match got up for the 29th inst. will be supplemented by a little horse racing and other attractions. The fact that the sports are to come off on the property of our excellent friend Mr. John Davidson, of Santo Domingo, is a guarantee of everything being tip-top, and a regular, jolly day.

The Belgrano police now make the local prisoners clean the Plaza, a far better employment for the rascals than smoking, playing cards, taking mate, and the generally hurtful way in which they are usually permitted to spend their time. Why are not the prisoners in Buenos Ayres made to sweep the streets of the city every morning, as is done in Europe.

A Peoria letter-carrier, after walking nine miles and delivering the same letter to 137 men, none of whom would receive it, sat down on a fire plug and wept. The letter was directed to Mr. Smith.

Dr. Lahitte's new Provincial and Hypothecary Bank Law is exciting the financial world to its depths. It is about the most pernicious piece of proposed legislation we have ever seen. If passed, Phillips' song "The World turned Upside-down" will not have been composed an hour too soon, as no man will be able to tell whether he is on his head or his heels, and the position of a costermonger be a far pleasanter one than that of a Bank Director.

Our Montevideau Letter contains all the latest news from that quarter. Although there has been a great deal of rain the newspapers are as dry as Sahara. Quarantine on vessels from Brazil has been reduced to six days. There is always a Wizard performing at the Mount. The trick man now before the public rejoices in the sweet name of Jam, though some of his friends say he can be tart enough when he likes.

Amongst the emigrants in the Asilo at Rosario is a French Bachelor of Arts, in whose favour as a mathematician and Latin scholar our colleague "A pack of wolves in Shelbune County, Minnesota, chased a couple of lawyers five miles, and the New Orleans *Republican* thinks it showed a lack of professional courtesy."

the *Capital* appeals for employment. If cruel Fortune has such reverses as this in store for bachelors of arts or anything else, they might as well get married at once, the choice of evils lying between six and half a dozen. Mr. Gay-do is the rising dentist at Rosario now. His name is horribly inappropriate. The idea of gaiety being associated with such an Inquisition-like profession is simply monstrous.

The only things we can find in the Cordoba papers are 'rumores alarmantes,' and the 'reunion de notables.' A wicked wag started a report that a local house had smashed for an 'enorme cantidad,' and for a short time everyone was shivering. We wonder if any of the bad sovereigns have found their way up to learned Cordoba. We bet there is not a 'Notable' in the blessed place could detect them.

We remark in the Report of the Minister of Interior that H.E. complains of not being able to get a mining engineer from Europe to survey and report on the mineral wealth of the country. May we introduce to H.E. Mr. Twite, an eminent mining engineer, now in this country, who was employed by the late President Lopez, of Paraguay, and subsequently by the King of Siam, to make extensive explorations, and who is an eminent man in his profession.

SECRETARIA DEL ARZOBISPADO DE BUENOS AYRES.

B. Ayres, Junio 8, 1874.

Al Sr. Canonigo Dignidad Don Patricio Dillon, Digno Capellan de los Irlandeses.

Por encargo del Exmo. Sr. Arzobispo tengo el honor de invitar por medio de V.S. á sus catolicos compatriotas para la fiesta extraordinaria que tendrá lugar en la Metropolitana el 21 del corriente fiesta de S. Luis Gonzaga, en que cae el 28 anniversario de la coronacion de Ntro. Ilmo. Padre Pio IX.

Dios guarde á V. muchos años,
Antonio Espinosa.

ON 'CHANGE.

June 15th, 1874.

Cunces	400
Sovs	122½
Pats	25
Nat. Bonds	75
Cedulas	79⅝

The Cedula market ruled very quiet to-day, and showed rather a firm tendency until about three o'clock, when one lot of 30,000 dated to-day were pushed in cash. The buyers looked at the date, found them hot fresh from the Bank, and late in the afternoon there was a drop all round—cash, end of month, and July.

No one on 'Change seemed to know of the heavy gold export from the Mount per Neva; on the contrary, people seemed to think that as regards the gold export question the Provincial Bank had stopped it, but sovereigns were selling all day to-day at Montevideo at a premium.

The arrival of the Bolivia was know early, but up to a late hour there was no produce news on 'Change, and people with much reason asked what on earth had become of Mr. Stand-by O'Gorman. Our telegrams will be found in the first column. The Bolivia will be up in the morning.

Mr. Gandara, who has just arrived from the country, reports the pasturages improving, and the grasses after the rains coming up. If there is no very severe frost the camps will now come round, but the cattle are still dying, and Mr. Donovan, who has also come in from the camp, says that the state of some districts beggars description.

Mr. James Lowry took leave of his friends on 'Change, where he was fairly 'enveloped.' He goes to Montevideo, and from thence to Paraguay, to see his new territory in that Republic.

The sales to-day were—

Cedulas.

For cash	2 800	79⅛
do	48,000	79⅜
do	7,600	79⅛
do	1,400	79⅛
Total cash	59,800.	
End of month	90,000	79⅜
do	60,000	79⅛
July 31	10,000	79⅛
Dec 31	10,000 deliverable	81⅛
July 31	4,000	80

During business hours to-day the market ruled very quiet, the King stood back and did nothing whatever. In the liquidation there was however some animation,

The sales were—

For end month	60,000	79⅛
do	10,000, with right to ask for 10,000 more	80
End July	50,000	80
For cash	5,000	79⅜
do	15,000	79⅜

Market closed sellers.

The Hamburg steamer Valparaiso entered to-day, also the Liverpool steamer Rubens.

In Exchange nothing much done; some £9000 sight bills on the Bank of Ireland offered—not sold yet.

Discount brokers report money very tight, and several loans on Cedulas that matured to-day were called up, as the borrower refused the valuation put on the stock (79), which is the appraised value of the stock for borrowing purposes in this market.

In the Plaza Once to day, in spite of the profound mul, 10 carts of wool were sold at 78, and one lot, 2000 ar, at station at 80.

The Neva, we learn by telegram, takes home a complete refutation to the articles that appeared in the English papers on the subject of the Uruguayan finances.

The Waterworks account for May shows an expenditure of $6,852,072 m/c up to date, and an income for the month of $295,641 m/c. If we deduct one-half for working expenses it leaves $1,800,000 net yearly, being 27 per cent on the capital employed.

The Minister's report, in another column, shows that the Central Argentine Company are thinking of selling the Cordoba Railway for Nat. Bonds, and that Sr Roman's concession for a railway to Copiapo has burst up.

The mole was crowded on Sunday, and the clearance of the Neva was an important business. Don Palemon Huergo and family left early, Dr. Wilson was accompanied to the stairs by a crowd of friends; a large property holder, and a River Plate resident of over 50 years standing, we hope to see him back again next year. The mails were heavy, and the bullion between £30,000 and £40,000 stg. We find on looking over our files that the Neva took from this port on the 14th June last year £200,000 sterling in gold, and if to what she took yesterday we add the bills drawn by the Provincial Bank, £130,000 sterling, we shall find that the remittances for both years are nearly the same. The Biela, as appears in our Montevidean letter, took a stiff sum enough in specie from the Mount, £35,000 sterling, which with what she took from here, amounts in all to £75,000 sterling, which for a Liverpool steamer is heavy enough. Still the impression is gradually gaining ground that we have now seen the worst, and that the River Plate money market is on the mend, an opinion shared by some of the most experienced in the Plata. We see that in the month of May last the specie in the Prov. Bank almost doubled; our imports show a healthy restriction, our exports have not fallen off to the extent anticipated since, according to Mr. Baraquero Durand's figures, this has been the largest wool season since 1865. Mr. Green in his circular shows a wool export for last month of 15,527 bales, when according to the market estimates made last April, our wool export for May should have been but little over ½ that quantity. People who are in any kind of a fair way of doing are gradually getting out of debt, and although, of course, it suits a very large and influential interest to look at things in their worst light, still the impression is gaining ground that we are slowly getting out of the muddle of the 6 per cent money of 1872, which was the cause and origen of the present continued crisis. The Calderon from Rio Grande has brought us good news from Rio, exchange up and sovereigns down, this also favors this market.

The Petrel has arrived at Montevideo bringing permanent way materials to Messrs. Waring Brothers for the Higuerita Railway. The Cordova, with waggons for the same line, left England on 26th March, and is consequently now overdue, and advice has been received of the Oneida having sailed from Newport on 16th April with fifteen hundred and sixty seven tons of rails, fastenings and sleepers for the same works.

The whole Bolsa, and, we may add, the whole commercial community of Buenos Ayres opposes Dr. Lahitte's new bank law. The more the measure is discussed the more invincible are the objections. In fact, if such a law were to be passed it would upset everything in this market, and under the pretence of a reform create more direct injury than if the Bank were to double its rate of interest and refuse to discount altogether. Every one on 'Change to day spoke of this crisis law—for if the bill passes it is thought things will be made ten times worse than what they are. If the object of Dr. Lahitte is to take from the Provincial Bank some of its very best custom, and force upon the National Bank and the private banks seven-eighths of the the trade 'pagares' in the market, then the measure can be understood; but it is an awkward hour to begin now, and under the plea of an improved financial morality to shut the Bank doors against the first signatures in the market, merely because their credit or legitimate business transactions surpass £20,000 stg. Amongst the many motives attributed for the introduction of this dangerous measure politics are not omitted, and it was said on 'Change to day that the real drift of it is to make certain well known political partizans pay up, but this we can hardly believe. Of one thing there can be no doubt, namely, that if the bill passes it will be rather a tight thing to be a Bank Director, for he must first pay up whatever he owes the bank, and next take his chance of getting money elsewhere. Let us hope that in the interests of the market, the bill will be either thrown out in toto or postponed until the money market here is on a better footing.

Messrs. H. A. Green & Co. report the following respecting the Lamport and Holt steam fleet—

S.s. Maraldo, owing to bad weather has postponed her departure until the 22nd inst. She can take bales for Antwerp and Liverpool.

S.s. Rubens, in port to-day, leaves on the 17th for Rosario, and can engage cargo in the Parana or at Buenos Ayres, having the latter port for Antwerp or Liverpool about the 30th inst.

S.s. Teniers and Galileo are due in Montevideo on the 18th. The former brings the Belgian mails of 15th ult.

S.s. Olbers will load for Antwerp and Liverpool taking the mails of the 9th prox.

With reference to the proposed law reforming the Provincial and Hypothecary Banks, the correct reading of one same is not as we copied it in our last impression. It is as follows:—

Art. 1. No member of the Board of Directors of the Provincial or Hypothecary Bank can, during his term of office, take or receive money from said Bank.

Art. 2. Neither can such Bank discount any bill endorsed, drawn or accepted by any member of the board.

Art. 3. The fine of a party owing the Provincial or Hypothecary Bank any sum disqualifies him for said post.

Art. 4. All parties elected directors of the Provincial or Hypothecary Bank shall, previous to taking office, pay off all indebtedness to the bank.

Art. 5. It is prohibited the Provincial Bank to give to any party a larger sum than 100,000 pats., even though secured by different signatures.

Art. 6. So also it is prohibited to accept in guarantee the name of anyone already indebted to the Provincial Bank to the amount of 100,000 pats.

Art. 7. All parties at present indebted to the said Bank for a larger amount than 100,000 pats. shall, on the maturing of their bills, pay 20 per cent amortization.

Art. 1. The Board of Directors of the Mortgage Bank shall pass monthly to the Provincial Bank a list of the mortgages effected each month, giving the mortgagors' names and also a list of the mortgages redeemed each month.

Art. 2. The said Board shall furth r supply the Provincial Bank all other particulars that may be asked for.

Messrs. Green, Le Rossignol & Co., in their circular for the packet give the following as the exports for the month ending 14th June:

Salted ox hides, 39,375.
Do. horse, 3,673.
Dry cow hides, 171,154.
Tallow, pipes, 2,674.
Do boxes, 3,713.
Horse hair, bales, 461
Wool do 19,527.
Sheepskins do 3,318.
Jerked beef, quintals, 21,109.

And they correct the figures of their previous circular with regard to the export of salted ox and cow hides, which should read 43,774.

Freights in General.

More favorable advices from Antwerp have caused some animation in wool, and a fair number of bales have been engaged during the last 15 days. It is estimated that about 8000/10000 bales of this season's clip have still to go forward. Half a dozen vessels will take the balance of salt'd hides and tallow on hand in the rivers. There will only be left this year's stock of bone asn. The slaughter of sheep will commence late, and will fall considerably short of last season. We have a dull winter before us, and the prospect of vessels finding employment here may be considered poor.

Salt.

Little demand, season being over; the last price of 9 rls. in port would not be obtainable to-day.

Coal.

Cardiff has been sold as low as 14½f. during last week, to-day 15½f. are offered. Retail sales are at 15.10 to 16½f. Market well supplied for the moment, and a considerable quantity still to arrive.

MARRIAGE.

June 8, at the Estancia Villa Nueva, Ranchor, by the Rev. M. P. Ferguson, M.A., Chascomus, James McCreath, to Julia Jane Hornby.

"By a New Hand"

Oh! there is not such a brandy come o'er the sea
As that wonderful brandy of Otard and Dupuy
All the rest of the brandies give headaches to me
So I sing to thy greatness great Otard & Dupuy.

I've drunk thee at eve, and I've drunk thee at morn,
I've drunk thee when weary, and sad, and forlorn—
I've drunk, and will drink thee, whenever I can,
For whenever I drink thee I feel a new man.

I've drunk thee in cocktails, I've drunk thee, Sir, neat,
'Till I knew not if I stood on my head or my feet,
Yet I awake in the morning as fresh as a bee,
With a shout for some soda and Otard and Dupuy!

SAVINGS BANK

BANK MAUA AND CO.

91--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing the selves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following he noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.
